

NON-ETO Statement

Lesja, 11.11.2013

To whom it my concern,

this letter is to certify that Ethylene Oxide (EtO) is NOT used to sterilize any equipment used for the manufacturing of salmon protein hydrolyzate (Amizate®) by Zymtech Production AS's plant in Lesja – Norway.

Consumer safety and customer satisfaction is our primary concern.

This statement is not limited in time.

We thank you for your continued interest in our product!
